

Type of saw for cutting blocks		PT 200
Number of reinforced-concrete bearings of the steel construction		2
Blocks cutting control		automatic
Truck drive	Truck drive – number of options to choose	1 (electric)
	Option 1 – Hydraulic drive – hydraulic actuator	-----
	Option 1 – Hydraulic drive – hydraulic power unit	-----
	Option 2 – Electric drive (placed under a truck)	smooth speed control
Maximum cross-feed		1800 mm
Maximum vertical feed of the support		1100 mm
Blade cutting depth		Ø 2000 mm – – Ø 825 mm
Maximum cutting length		4500 mm
Power	Option 1: engine power / total power of energy receivers	22kW / 30kW
	Option 2: engine power/ total power of energy receivers	30kW / 38kW
Possibility of installation of more powerful engines (on customer's request)		YES
Possibility of main engine speed control		additional option
