

Parametry techniczne

Type of saw for cutting blocks		PT 300
Number of reinforced-concrete bearings of the steel construction		4
Blocks cutting control		automatic
Truck drive	Truck drive – number of options to choose	2 (hydraulic or electric)
	Option 1 – Hydraulic drive – hydraulic actuator	ZY 3054
	Option 1 – Hydraulic drive – hydraulic power unit	UHSL-160
	Option 2 – Electric drive (placed under a truck)	smooth speed control
Maximum cross-feed		1700 mm
Maximum vertical feed of the support		1700 mm
Blade cutting depth		Ø 3000 mm – – Ø 1270 mm
Maximum cutting length		4500 mm
Power	Option 1: engine power / total power of energy receivers	45kW / 53kW
	Option 2: engine power/ total power of energy receivers	55kW / 63kW
Possibility of installation of more powerful engines (on customer's request)		-----
Possibility of main engine speed control		additional option
